AMENDMENT UNDER 37 C.F.R. § 1.111

Dear Sir:

This Amendment is being submitted in response to the Office Action dated July 16, 2002 relating to the above-identified application. Reexamination and reconsideration of said application are respectfully requested.

IN THE SPECIFICATION

Please insert the following paragraphs as amended in this section. Pursuant to 37 C.F.R. §1.121, a marked-up version of the following paragraphs are attached hereto as Exhibit A.

Please replace the paragraph beginning on page 6, line 12 with the following:

The processing continues at step 62 where selected display capabilities are substituted for the capability parameters. The selected display capabilities include display parameters that exceed the display capabilities of each of the multiple displays coupled to the computing system 10. For example, if the computing system 10 has three displays coupled to a single video graphics card, where the first display has a pixel resolution of 640 x 480, the second 720 x 540 and the third 1024 x 768, the selected display capabilities would have a resolution at least as great as 1024 x 768 and may further be increased to 1920 x 1440 or higher. As such, the selected display capabilities may be determined based on a composite of the display parameters of each of the multiple displays, such as an average, a maximum display parameters, or default
